

Wide-Ranging Electric Fan

Designed for Commercial Application

- Guide Vane design generates strong and focus air flow up to 10 metre distance
- Aluminium blade for stronger air flow and durability
- Added angle adjust bolt for extra stability on the fan's knee joint
- Full automatic oscillation
- 3 speed ON/OFF pull switch
- New and modern Front Guard Design
- Suitable for installation at various places with sleek outlook

NEW TECHNOLOGY

YU50X

① New Guide Vane

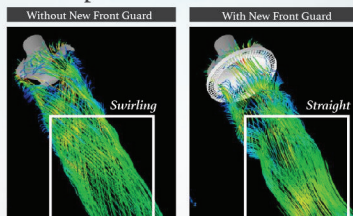

Guide Vane shape is matched to intake flow. Minimizing pressure loss

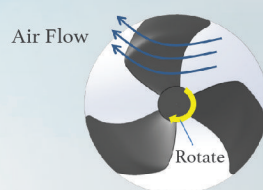

Guide Vane

Change swirling flow to straight restrain flow spreading

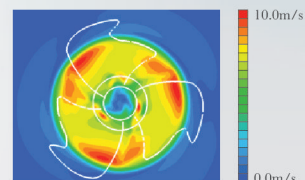

Computer Simulation Result

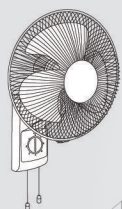

② New Metal Blade Design

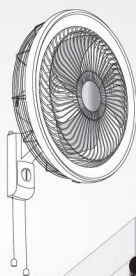

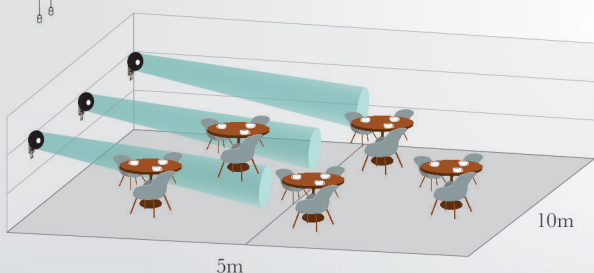

Higher Air Velocity

New Guide Vane (Patent Pending) and metal blade design bring larger air volume and higher air velocity reaching further distance.

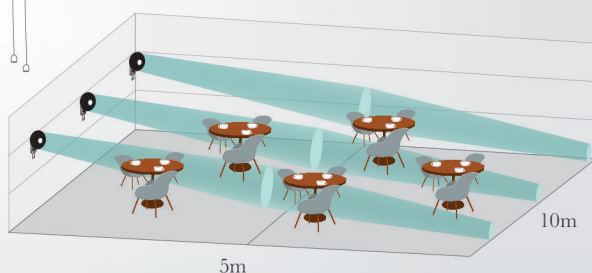

Other commercial fans

Deliver air efficiently reaching further distance especially in wide spaces of commercial area.

YU50X(NEW)
Blade size: 50cm

SPECIFICATIONS

YU50X

Blade size (cm)	50	
Voltage (V)	230	
Frequency (Hz)	50	
Wattage (W)	Hi	67
	Lo	56
RPM (/min)	Hi	1,260
	Lo	880
Air Velocity (m/min)	290	
Air Delivery (m ³ /min)	105	
Weight (kg)	6
